

Dear Parents/Carers

We collect recyclable items for junk modelling activities. Junk modelling is very beneficial to your child's development in the following ways: it encourages problem solving, exercises their creativity and improves their fine motor skills. Please support us and donate any recyclable items you may have at home.

Examples of the sorts of items you could bring in:

- egg boxes
- cardboard packaging
- plastic packaging
- yoghurt pots
- kitchen roll tubes
- empty cereal boxes
- bottle lids
- corks
- empty hand soap dispensers
- empty washing up bottles

We will collect these resources throughout the year so please bring them in whenever you can.

Many thanks

The Foundation Stage Team
